PROFESSIONAL SUMMARY

Motivated Full-Stack Developer and BCA graduate with hands-on experience in web development, product management, and software quality assurance. Proficient in building responsive front-end interfaces using React.js and modern CSS frameworks, alongside robust back-end systems with Java, Spring Boot, and SQL databases. Experienced in translating business requirements into functional software, collaborating with cross-functional teams, and upholding high-quality release standards. Actively seeking a challenging role to apply technical expertise and contribute to impactful, user-driven products.

TECHNICAL SKILLS

Programming Languages: Java, Advanced Java, JavaScript (ES6+)

Frontend Development: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS, EJS, jQuery

Backend Development: Spring, Spring Boot, Hibernate, Node.js, Express.js

Databases & SQL: Oracle SQL, MySQL, PostgreSQL, SQLite

Tools & IDEs: VS Code, Eclipse, IntelliJ IDEA, Vite, npm, Apache Maven

Version Control & CI/CD: Git, GitHub, GitHub Pages, Netlify

PROFESSIONAL EXPERIENCE

Intern – IT Software (Product Management)

K12 Techno Services Private Limited

January 2026 – April 2026

- Supported end-to-end product lifecycle activities including requirement gathering, analysis, documentation, and stakeholder coordination for ERP-based educational platform modules.
- Assisted in data analysis and reporting to identify process bottlenecks, contributing to improvements in issue resolution turnaround across ERP system components.
- Collaborated with developers, testers, and business analysts to translate user stories into detailed functional specifications, ensuring technical clarity and scope alignment.
- Participated in sprint planning, backlog grooming, and progress reporting meetings, maintaining alignment between product roadmap milestones and engineering deliverables.

Trainee QA Executive

Winman Software India LLP

October 2025 – January 2026

- Designed and executed comprehensive test cases for new and updated features across internal enterprise applications — including Ticket Management, Reminder, and DataManager modules.
- Identified, documented, and tracked software defects through the complete defect lifecycle — from discovery and reproduction to verification and closure — using structured bug-tracking workflows.
- Collaborated with the development team to communicate defect details, prioritise critical fixes, and verify resolutions, maintaining a high standard of feature release quality.
- Contributed to regression testing efforts post-sprint to ensure previously stable functionality remained unaffected by new updates.

PROJECTS

CSS Playground – Interactive Learning & Code Generator

[Demo](#) | [View Code](#)

Project Lead | Frontend Developer | Tech: HTML, CSS, JavaScript, jQuery, Bootstrap

- Built a browser-based CSS experimentation platform with real-time property tweaking, live preview rendering, and auto-generated shareable code snippets.
- Designed modular styling modules covering layout, typography, colour theory, and animations for structured beginner-to-intermediate learning.
- Shipped v2 with full mobile responsiveness, redesigned control panels, and a refined visual language — significantly improving usability and engagement.

SQL Mastery Platform – Interactive SQL Learning Platform

[Demo](#) | [View Code](#)

Developer | Tech: React.js, Vite, Tailwind CSS, SQL.js, SQLite, Framer Motion

- Built a fully client-side SQL learning platform using SQL.js (SQLite/WebAssembly), letting users write and run real queries in-browser with no backend required.
- Structured curriculum from beginner to advanced — covering JOINS, subqueries, aggregations, and indexing — with embedded sample databases for hands-on practice.
- Implemented a responsive UI with Tailwind CSS and smooth transitions via Framer Motion; deployed on GitHub Pages with automated CI/CD workflows.

React Portfolio – Personal Developer Showcase

[Demo](#) | [View Code](#)

Developer | Tech: React.js, JavaScript (ES6+), CSS3, HTML5, EmailJS, React Icons

- Developed a fully responsive multi-section portfolio using React.js component architecture, showcasing projects, skills, experience, and certifications.
- Integrated EmailJS API for a functional, server-free contact form and applied scroll-based reveal animations for a polished, performant user experience.

EDUCATION

Bachelor of Computer Applications (BCA)

Bhandarkar's Arts & Science College, Kundapura — Udupi, Karnataka 85% | Dec 2021 – Aug 2024

12th – Pre-University Course (PUC)

VaraSiddhi Vinayaka P U College, Keradi — Udupi, Karnataka 95.33% | June 2020 – July 2021

10th – SSLC

Shri Mookambika Temple High School, Hosur — Udupi, Karnataka 92.64% | June 2018 – May 2019

CERTIFICATIONS & COURSES

Google Cybersecurity Professional Certification – Google via Coursera

Databases for Developers – Foundations – Oracle Corporation (Oracle Dev Gym)

The Complete Full-Stack Web Development Bootcamp – Udemy
